Mission: Burundi

Burundi is one of the smallest and poorest nations in the world. Its GNP ranks at the very bottom of all nations. It was in the capital city of Bujumbura that we were led to conduct our latest mission outreach.

In the crusade meetings we saw a rich outpouring of the Holy Spirit. One interesting thing about these meetings is that we seemed to see a high percentage of young men being touched and coming forward to give their lives to Christ. Some of the local pastors indicated that many of these young men had been thieves and were living very immoral lives. It seems the location of these meetings was very much a crime ridden area, but the Holy Spirit was powerfully touching many who had lived such ungodly lives.

We saw a wonderful flow of Jesus' healing grace moving among us. God seemed to be eager to demonstrate His love and power to these beautiful people. A Muslim man came forward at the end of one of the meetings. He was healed of a crippled leg and gave his heart to Jesus. A woman who walked bent over at a ninety degree angle was able to straighten up. A man with a paralyzed arm found freedom. One man reported being healed before I ever prayed for the sick or spoke about healing. He said he was healed as I preached about Jesus' death on the cross! Praise God for His love and power!

Left: Gatherings are not merely masses of people; each individual is precious to God.

Below: This lady had long been experiencing pain in her head and blurred vision. Both conditions were instantly healed.

Get the DVD!

We are producing a DVD of Dennis' recent mission to Burundi. This DVD will be sent out automatically to our "Friends of Grace" (those who have made a commitment to regularly support the ministry). However if you are not on this list but would like to watch the DVD and get a feel for the nature of these African crusades / conferences, write us today and ask for the Burundi DVD. If you can include an offering to help defray the cost we would appreciate it, but it is not necessary. The DVD is free.
